QUALITY BLENDED IN EVERY GALLON

Prevox 5005 A-RP is a water-based corrosion inhibitor that will protect ferrous metals from rust in indoor atmospheres. The film is thin and feels dry to the touch. This product works by the evaporation of water, leaving a very thin film of amine salts that form a protective coating to provide short-term, covered storage. Prevox 5005 A-RP is easily removed with a mild solution of an detergent.

Benefits

Easily Removed
Environmentally Friendly
Dry to the Touch Film

Physical Characteristics

TEST	SPECIFICATION
Specific Gravity	1.025
Flash Point F	None
pH	9.5
Indoor Storage	60 days
Petroleum Derivitives %	0
Appearance	Light amber
Odor	Mild Chemical
